# Foreman - Bug #29102

## Default Organization and Default Location are mixed up in queries

02/20/2020 09:38 PM - Ian Ballou

### Description

If you have a subnet say with Default Location and no Organization, and you search organization="Default Location", you will see your subnet. However, you will not see the subnet if you search location=Default Organization. The autocomplete mixes Location and Org too. I've attached a screenshot.
