

Foreman - Feature #29135

Add external links controller

02/23/2020 01:58 PM - Shimon Shtein

Status:	Closed	
Priority:	Normal	
Assignee:	Shimon Shtein	
Category:	Web Interface	
Target version:		
Difficulty:		Fixed in Releases: 2.1.0
Triaged:	No	Found in Releases:
Bugzilla link:	1771484	Red Hat JIRA:
Pull request:	https://github.com/foreman/foreman/pull/7462 , https://github.com/foreman/foreman/pull/7682	
Description		
<p>Add a controller that will be responsible to handle all external links in the code. This will enable plugins to override the default behavior for all links that exist in our code: Plugins will be able to change the url for all links, thus enabling things like internal documentation, or local caches. This becomes more important once we start implementing links in both react and ruby code. Without this feature, we will need to duplicate link generation logic to both client and server.</p>		

Associated revisions

Revision 97b997fd - 05/05/2020 11:57 AM - Shimon Shtein

Fixes #29135 - Move external links to a single controller

Revision 971b2f69 - 05/21/2020 02:02 PM - Shimon Shtein

Refs #29135 - fix section paramter in links

Now the parameter can accept any input including dots
