### Description

fog created a new Version 3.2.3 a few Days ago containing the following commit:

https://github.com/fog/fog-vsphere/commit/063aa1fcf0f67459fb8e5416bb2ab2dd62bfd4d4#diff-785eb16a4118811d4077995edc322257

this breaks VM creation on ESX Cluster with Foreman 1.24.2 on Debian 9 and 10 with the following Error:

undefined local variable or method `options' for #<Fog::Vsphere::Compute::Real:0x00007fafff006458>

## History

**#1 - 02/24/2020 06:59 PM - Alexander Over**

*- Subject changed from VM Creation failing on Debian 10 with fog-vsphere 3.2.3 to VM Creation failing with fog-vsphere 3.2.3*

*- Description updated*
