

Packaging - Bug #29281

On upgrade dynflowd is not stopped

03/06/2020 03:37 PM - Ewoud Kohl van Wijngaarden

Description

When upgrading from Foreman 1.24 to 2.0, the dynflowd service is still running. I would expect that the foreman RPM makes sure the service is stopped since the unit file is no longer shipped.

Note it's not possible to stop a service after its unit file has been removed:

```
[root@pipeline-foreman-server-1-24-centos7 ~]# systemctl --no-reload disable --now dynflowd
Failed to execute operation: No such file or directory
[root@pipeline-foreman-server-1-24-centos7 ~]# systemctl status dynflowd
● dynflowd.service
   Loaded: not-found (Reason: No such file or directory)
   Active: active (running) since Fri 2020-03-06 14:52:43 UTC; 1h 17min ago
   CGroup: /system.slice/dynflowd.service
           └─20590 dynflow_executor_monitor
             └─20596 dynflow_executor
```

It can also be seen that a foreman-tasks.service remains as a dangling symlink:

```
[root@pipeline-foreman-server-1-24-centos7 ~]# ls -l /etc/systemd/system/foreman-tasks.service
lrwxrwxrwx. 1 root root 40 Mar  6 14:52 /etc/systemd/system/foreman-tasks.service -> /usr/lib/systemd/system/dynflowd.service
```

Associated revisions

Revision abeca761 - 03/31/2020 05:31 PM - Eric Helms

Fixes #29281: Stop dynflowd service before removal

Revision 3757af14 - 04/06/2020 05:11 PM - Ewoud Kohl van Wijngaarden

Fixes #29281 - Forcefully remove dynflowd.service

The dynflowd.service was removed in Foreman 2.0 by just dropping the .service file which means the service keeps running.

History

Same with DEBs:

```
lrwxrwxrwx 1 root root 36 Dec 12 2017 ruby-foreman-tasks.service -> /lib/systemd/system/dynflowd.service
```
