Description

There are some changes needed to template/settings.py to support pulpcore 3.2

We need the below to support 3.2:

AUTHENTICATION_BACKENDS = ['pulpcore.app.authentication.PulpNoCreateRemoteUserBackend']

REST_FRAMEWORK__DEFAULT_AUTHENTICATION_CLASSES = (
'rest_framework.authentication.SessionAuthentication',
'pulpcore.app.authentication.PulpRemoteUserAuthentication'
)

ALLOWED_IMPORT_PATHS = ['/var/www/test_repos']
