Foreman - Bug #29484

after_build hook is executed at the wrong host creation stage

04/06/2020 07:46 PM - Bernhard Suttner

Status:	Rejected		
Priority:	Normal		
Assignee:	Bernhard Suttner

Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/foreman/pull/7570		

Description

Current:

def build_hooks
return if previous_changes['build'].nil?
if build?
run_callbacks :build do

build? is true! if the host IS in build stage. But, after_build should be the point in time, when the build is finished - so if build was set from true to false. Currently, before_provision and after_build are mixed up.

History

#1 - 04/06/2020 07:50 PM - The Foreman Bot

- Status changed from New to Ready For Testing

- Assignee set to Bernhard Suttner

- Pull request https://github.com/theforeman/foreman/pull/7570 added

#2 - 04/07/2020 02:31 PM - Bernhard Suttner

- Status changed from Ready For Testing to Rejected

I came to the conclusion, that the sequence is fine. Sorry for opening the issue.
