

Foreman - Bug #29493

Can't search Hosts/Hostgroup by Parameter

04/07/2020 09:54 AM - Lars Wagner

Status: Resolved	
Priority: Normal	
Assignee:	
Category: Host groups	
Target version:	
Difficulty:	Fixed in Releases:
Triaged: No	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description If I try to search a host or hostgroup by a parameter like: <pre>has params.myparameter</pre> This gives me in the hosts section the following error: <pre>undefined method `table_name' for nil:NilClass</pre> and in the host group search the following error: <pre>Invalid search query: Field 'params.myparam' not recognized for searching!</pre> We are running foreman version 1.24.2. If you need any further information, just let me know.

History

#1 - 05/04/2020 01:41 PM - Lars Wagner

- Related to Bug #29683: Unable to search by value of certain Hostgroup parameter added

#2 - 03/05/2021 03:59 PM - Lars Wagner

The error is still the same on the latest foreman release 2.3.3. Might somebody be able to have a look into it? The problem is the same for the host and hostgroup search:

```
undefined method `table_name' for nil:NilClass
```

#3 - 03/05/2021 04:00 PM - Lars Wagner

- Category set to Host groups

#4 - 03/25/2021 04:51 PM - Lars Wagner

- Status changed from New to Resolved

Parameters can be search liked that:

```
params.myparam != ""
```
