Errors in the string extraction in the Welcome page that prevent good translation

Description	
Here are the 3 sentences in the Welcome page that need to be redone :	
<pre>For internal Users, simply create a new user at the Users page If you chose to use LDAP authentication then you must provide connection details for your authentication provider on LDAP page For Roles and permissions, see the Roles page</pre>	
Actually <Users> <LDAP> and <Roles> are links. "page" is not a member of the previous string so I cannot place the word "page" before the link as I should in French.
