Bugzilla link: 1784342	Red Hat JIRA:
Pull request:	
Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1784342	
Description of problem: There are 4 permissions related to bookmarks: - view_bookmarks - edit_bookmarks - create_bookmarks - destroy_bookmarks If a Satellite user is granted the 'destroy_bookmarks' permission, it will allow him to destroy ALL public bookmarks. It would be nice to introduce a new permission, e.g 'destroy_own_bookmarks' which could be used to allow user to destroy only his own bookmarks.	

History

#1 - 04/16/2020 10:26 AM - Ondřej Ezr

- Subject changed from Add permission that would allow a user to remove just his own bookmarks to Add permission that would allow a user to remove just his own bookmarks
- Category set to Users, Roles and Permissions
- Priority changed from High to Normal
- Triaged changed from No to Yes
