Pull request:			

Description

Description of problem: Some unlocalized strings found on page.

Version-Release number of selected component (if applicable): Version 2.1.0-develop

How reproducible: Always

Steps to Reproduce:
1. Login to Foreman 2.1 instance with Japanese language.
2. Navigate to Configure -> Puppet Classes.
3. Look at the Environments column.

Actual results: Un-localized strings.

Expected results: Strings should be marked as translated.

Additional info: Please see attached screenshot.
