Packaging - Bug #30109

On EL8 certain files are still deployed to old SCL prefix, making processes miss them

Pull request:			

Description

specifically, rubygem-smart_proxy_remote_execution_ssh deploys foreman_remote_execution_core.rb file to /opt/theforeman/tfm/root/usr/share/smart_proxy_dynflow_core/bundler.d/ instead of /usr/share/smart_proxy_dynflow_core/bundler.d/. Because of this wrong placement, smart proxy dynflow core will not load remote execution bits. It is possible this also happens for other smart proxy dynflow core plugins

History

#1 - 06/29/2020 02:41 PM - Ewoud Kohl van Wijngaarden

- Status changed from New to Closed

- Assignee set to Evgeni Golov

- Target version set to 2.1.0

- Triaged changed from No to Yes

- Fixed in Releases 2.1.0 added

Fixed in 88bf6554e6ceec012da4455c088a3b2956317d4b (picked as commit:bc743ca503e432771596ebb4ceee942056db094a)
