Revision 57b9a125 - 11/17/2020 06:06 PM - Eric Helms

Fixes #30252: Make wait for port more resilient

The current method can result in journal error messages:

```
[System] error Error reading socket: Encountered end of file [-5938]
```

This updated version waits and checks for listening ports and greps for the port in question to appear before signaling that the service is ready.
