Pull request:			

Description

Version 6.0.6 introduced support for systemd's Type=notify and WatchDog. Currently we're on 5.x

https://github.com/mperham/sidekiq/blob/master/6.0-Upgrade.md has some notes but I think all requirements are met.

After upgrading
https://github.com/mperham/sidekiq/blob/19cf129fe34a979ef2eb129a1e07fd83fb8a895a/examples/systemd/sidekiq.service#L31-L41
should be applied to our service file.

This is blocked until gitlab-sidekiq-fetcher starts supporting sidekiq 6
https://gitlab.com/gitlab-org/sidekiq-reliable-fetch/-/blob/master/gitlab-sidekiq-fetcher.gemspec#L13

#3 - 08/31/2020 08:42 AM - Ewoud Kohl van Wijngaarden

- Related to Bug #30730: Implement systemd notify support for dynflow-sidekiq services added

#4 - 08/31/2020 08:44 AM - Ewoud Kohl van Wijngaarden

Via #30730 systemd support is implemented directly in the script. When upgrading to 6.0, this should be adjusted since there's overlapping code.
