Here's an example of the changes column in one of the problematic records:

```

  build:
    - true
    - false
```

If I view the audit record directly, it shows up as empty - ie, the page renders properly, but there are no changes listed.

Sorry, ignore that traceback - that's one from when I was in the middle of mucking around. Here's one from the original source:

```
Processing AuditsController#index (for 130.215.201.24 at 2010-06-04 12:54:39) [GET]
