

## Installer - Bug #3080

### Installing puppetmaster with passenger without foreman causes AVC denials

09/13/2013 10:49 AM - Ivan Necas

<b>Status:</b> Closed

<b>Pull request:</b>	
<b>Description</b>	
The problem is the policy for passenger to work is included in foreman-selinux, that doesn't get installed when installing puppetmaster.	
Ideally, there would be separate policy for both foreman and puppet.

#### History

##### #1 - 09/13/2013 12:44 PM - Ivan Necas

Partially fixed in <https://github.com/theforeman/puppet-passenger/pull/16>, installing foreman-selinux when configuring passenger

##### #2 - 09/16/2013 11:58 AM - Lukas Zapletal

- Related to Feature #2820: Improve SELinux policy for puppet added

##### #3 - 06/20/2014 01:41 PM - Lukas Zapletal

- Related to Bug #6316: Break up foreman, puppetmaster and passenger domains added

##### #4 - 06/20/2014 01:42 PM - Lukas Zapletal

We need to workaround this, full solution needs more time: <http://projects.theforeman.org/issues/6316>

##### #5 - 07/22/2019 03:50 PM - Ewoud Kohl van Wijngaarden

- Status changed from New to Closed

Puppet no longer runs under passenger so I'm going to close this.
