- Target version changed from 1.3.0 to 1.4.0

This has become somewhat involved and affects a few modules, bumping to 1.4. As far as I can see, there's nothing 1.3-specific here, so it's always been a possibility and hasn't cropped up during more recent tests. Workaround is to run the installer twice.

#7 - 10/16/2013 03:47 PM - Greg Sutcliffe

- Target version deleted (1.4.0)

#8 - 01/09/2014 11:40 PM - Dominic Cleal

- Status changed from Assigned to Rejected

[#3972](#) will fix this properly.
