

Smart Proxy - Bug #30863

Make keep-alive long for UEFI HTTP boot

09/17/2020 08:35 AM - Lukas Zapletal

Status:	New	
Priority:	Normal	
Assignee:	Lukas Zapletal	
Category:	HTTPBoot	
Target version:		
Difficulty:		Fixed in Releases:
Triaged:	Yes	Found in Releases:
Bugzilla link:		Red Hat JIRA:
Pull request:		
Description		
UEFI firmware requires one TCP connection which must not close through the whole session of downloading bootloader, config files and kernel/ramdisk. Let's make sure keep-alive is set properly.
