<b>Pull request:</b>		
<b>Description</b>		
The the Debian package specification introduced with issue <a href="#">#299</a> contains two errors:		
<ul style="list-style-type: none"><li>• The init script sometimes exits with a return code &gt;0 although no error occurred starting or stopping foreman</li><li>• The script ./extras/dbmigrate only echoed the command it should run.</li></ul>		
The attached patches fix both issues.
