Revision 477d457c - 01/06/2021 11:02 AM - Ondřej Ezr

Fixes #31213 - hostgroup API facets extension point (#8115)

- Fixes #31213 - hostgroup API facets extension point

Adds Facet extension points for Hostgroup API responses.
Refactor refresh for facets, to ensure all run just once.

Now the already registered entries are being run once the facet entry point is configured.
The hook is registered also on the entry point registration.
It should give us more clear API of the new facet entry point registration.

- Refs #31213 - model specific definition iterable

fixes an issue with an Model having access to general facet definitions (entries)
rather than it's own (model based entries) definitions.

- Refs #31213 - Add tests for API response with facets
