Description

We made a change to cleanup iPXE template code by using <%= foreman_url('iPXE', mac: "${net#{i}/mac}") %> which is cleaner but it has one major issue, it renders to URL encoded string:
http://foreman.some.host.fqdn/unattended/iPXE?mac=%24%7Bnet0%2Fmac%7D while this should be
http://foreman.some.host.fqdn/unattended/iPXE?mac=${net0/mac}

This breaks iPXE workflow completely.
