

## Foreman - Bug #31355

### [Foreman 2.3] [zh\_CN/ja\_JP] Non-localized string present in sub menu links of Hosts page.

11/20/2020 11:50 AM - vijaykumar sawant

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Internationalization	
<b>Target version:</b>	
<b>Difficulty:</b>	<b>Fixed in Releases:</b>
<b>Triaged:</b> No	<b>Found in Releases:</b> 2.3.0
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
<b>Description of problem:</b> Non-localized strings present on different pages of Hosts menu.	
<b>Version-Release number of selected component (if applicable):</b> Version 2.3.0 RC-1	
How reproducible: Always	
<b>#1-Steps to Reproduce:</b>	
1. Login to Foreman 2.3 instance with Japanese/Chinese language.	
2. Navigate to Hosts - Job Templates page.	
3. Click on Import button.	
<b>Actual results:</b> String is not marked as translatable string.	
<b>Expected results:</b> Strings should be localized correctly.	
<b>Additional info:</b> Same thing can be seen at another sub menu link.	
<b>#2-Steps to Reproduce at Hosts - Policies</b>	
Navigate to Hosts - Policies, Click on New Policy, look for the message and radio button text.	
<b>#3-Steps to Reproduce at Hosts - SCAP Contents</b>	
Navigate to Hosts - SCAP Contents, look for the column name in the table.	
<b>#3-Steps to Reproduce at Hosts - Tailoring Files</b>	
Navigate to Hosts - Tailoring Files, click on New Tailoring Files.	
Please see attached screenshots for all the issues.

**Description of problem:** Non-localized strings present on different pages of Hosts menu.

**Version-Release number of selected component (if applicable):** Version 2.3.0 RC-1

How reproducible: Always

#### #1-Steps to Reproduce:

1. Login to Foreman 2.3 instance with Japanese/Chinese language.
2. Navigate to Hosts - Job Templates page.
3. Click on Import button.

**Actual results:** String is not marked as translatable string.

**Expected results:** Strings should be localized correctly.

**Additional info:** Same thing can be seen at another sub menu link.

#### #2-Steps to Reproduce at Hosts - Policies

Navigate to Hosts - Policies, Click on New Policy, look for the message and radio button text.

#### #3-Steps to Reproduce at Hosts - SCAP Contents

Navigate to Hosts - SCAP Contents, look for the column name in the table.

#### #3-Steps to Reproduce at Hosts - Tailoring Files

Navigate to Hosts - Tailoring Files, click on New Tailoring Files.

Please see attached screenshots for all the issues.

TS2\_New-Policy-strings-are-not-localized.png - Ansible, Puppet, Manual terms are specific tech words which cant be translated.

TS2\_Create-host-tab-operating-system.png - Media selection has been marked as translatable in <https://projects.theforeman.org/issues/32237>

TS4\_Search-butoon-filter-options.png - I am checking if search bookmarks can be translated.

Closing this as I have separated issues,

The 'Media' string is already fixed

The default bookmark names on Content Host page is untranslated - <https://projects.theforeman.org/issues/32477>

The file upload button 'Choose File' and default text 'No file chosen' is untranslated - <https://projects.theforeman.org/issues/32478>

'How templates are translated' and Tooltip of provisioning templates - <https://projects.theforeman.org/issues/32468>

Job Template's 'Import job template' string is untranslated -<https://projects.theforeman.org/issues/32479>

There are significant differences in deployment options. Please make sure you understand them by reading our -

<https://projects.theforeman.org/issues/32469>
