Revision 78188a4e - 02/16/2021 10:51 AM - Tomer Brisker

Fixes #31884 - Correctly warn about wrong logging layout

When running `rake errors:fetch_log`, if the logging layout isn't set to `multiline_request_pattern` the task errors out because `STDERR` doesn't exist. This is a typo, it should have been `stderr`, but since we use stdout for all other messages this has been dropped to be consistent.
