Fixed in Releases:

2.4.0

The installer does not exit with these permission denied errors, it continues its work but the error message is a bit concerning.

Revision 8310aa68 - 03/04/2021 01:15 PM - Eric Helms

Fixes #32002: Use runuser for executing reset commands

Hides nonsense errors such as when a user cannot change directories when running the reset-data command. Additionally, converts reset-data execution into log output only.
