

## Foreman - Feature #32115

### Unify the registration and provisioning parameters

03/17/2021 05:18 PM - Marek Hulán

<b>Pull request:</b>	
<b>Description</b> Both host bootstrapping methods (provisioning and registration) should use the same parameters for customizing the behavior (rex and insights so far). After this has been merged <a href="https://github.com/theforeman/foreman/pull/8371">https://github.com/theforeman/foreman/pull/8371</a> we concluded it would be better to keep at as it was, just rename the parameters so they are not registration specific.	

#### History

#1 - 03/17/2021 05:19 PM - Marek Hulán

- Category set to Host registration

#2 - 08/09/2021 01:13 PM - Leos Stejskal

- Priority changed from Normal to Low

- Triaged changed from No to Yes
