Pull request: https://github.com/theforeman/puppet-for-eman_proxy_content/pull/343 , https://github.com/theforeman/puppet-katello/pull/401 , https://github.com/theforeman/foreman-installer/pull/677 , https://github.com/theforeman/puppet-for-eman_proxy_content/pull/344	
Description	
Currently we package pulp_ansible python package so it's possible to do a yum install and restart pulpcore with the migrations complete to enable pulp_ansible.	
We would need this installation and configuration as described here https://projects.theforeman.org/issues/31950 to be done as part of the installer and enable pulp_ansible by default on fresh installs(and upgrades)
