

Foreman - Bug #32354

(Ansible) Error when trying to import Ansible variables even though roles are imported.

04/20/2021 10:08 AM - Jannis Harting

Status: Resolved	
Priority: Normal

Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
When trying to import Ansible variables into Foreman I get the following error:	
<pre>undefined method `imported=' for #<AnsibleVariable:0x00007f7b643fcaa0>.</pre>	
However, importing the Ansible roles worked. Version info in trace.
