Description

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1943306

Description of problem:

This seems like a regression from earlier versions of Satellite. Trying to generate a Subscription - Entitlement Report throws an error about Input Days from Now. Earlier versions of Satellite (6.6, 6.7) did not show this issue:

~~~

1. hammer report-template list | grep 130
   130 | Subscription - Entitlement Report

1. hammer report-template generate --report-format yaml --id 130

Input Days from Now: Value can't be blank
Input Days from Now: Value is not included in the list
~~~

Adding the "--inputs" flag with a value works:

~~~

1. hammer report-template generate --report-format yaml --id 130 --inputs "Days from Now"="no limit"
   ~~~

Version-Release number of selected component (if applicable):
Satellite 6.8.2

How reproducible:
always

Steps to Reproduce:
1.
2.
3.

Actual results:
report template fails to run due to error about "Days from Now"

Expected results:
report template should generate without warning

Revision a869ca41 - 12/06/2023 05:20 PM - Quinn James

Fixes #32359 - Entitlement report generation now shows all entitlements by default.

Modified gitignore to exclude .yardoc directory.

- Category changed from Statistics to Reporting

- Priority changed from High to Normal

- Difficulty set to easy

- Triaged changed from No to Yes

The error also appears when using API directly. I'd suggest allow nil or use default value for "Input Days from Now" input.
