

Foreman - Bug #32397

Confirming interface modal by enter causes whole Host form to get confirmed

04/22/2021 02:21 PM - Ondřej Ezr

Status:	Closed	
Priority:	Normal	
Assignee:	Adi Abramovitch	
Category:	Host creation	
Target version:	2.5.1	
Difficulty:		Fixed in Releases: 2.5.1, 3.0.0
Triaged:	Yes	Found in Releases:
Bugzilla link:	1775784	Red Hat JIRA:
Pull request:	https://github.com/theforeman/foreman/pull/8543 , https://github.com/theforeman/foreman/pull/8590	

Description

If interface modal (in edit host menu) is confirmed with enter, enter confirms host update instead of new interface, this action cause another misbehavior

Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1775784

Description of problem:

When user adds new interfaces to hosts and user will confirm this action with enter instead new interface confirmation the host update confirmation is done. This action is also causing additional bug where user is unable to continue with his work without refresh or url change, because screen is faded with gray color and no action is allowed.

Version-Release number of selected component (if applicable):

Sat 6.6 snap 24
and also
Sat 6.7 snap 1

How reproducible:

Always

Steps to Reproduce:

1. Navigate through Host -> Edit host -> Interfaces -> Add Interface
2. Click with mouse to any field in Add interface menu (e.g Device Identifier)
3. Press Enter on your keyboard (doesn't matter which enter)

Actual results:

Confirmation doesn't work for new interface submit, but for the host submit. Host is updated, but user is unable to continue the work, because screen is faded by gray color.

more concretely div element with class: modal-backdrop fade in

Expected results:

After user will hit the enter, only new interface should be added. And another enter should confirm host update.

Additional info:

Not sure why is allowed to add empty interfaces (without any attributes) to your hosts. But this is not connected with this bugzilla. I would just like to know the idea behind that.

Associated revisions

Revision 71a331c5 - 05/24/2021 10:22 AM - Adi Abramovitch

Fixes #32397 - changed button type to submit (#8543)

`<input type="button">` doesn't get the enter event in some cases.
submit type with `return false;` should fix this issue.
