Description

When you run the rake task apipie:cache:index it prints a message that the cache is out of date:

    API controllers newer than Apipie cache! Run apipie:cache rake task to regenerate cache.

Since this is the command to actually generate that cache, the user shouldn't be bothered with it.

Revision 7a403146 - 04/28/2021 08:53 AM - Ewoud Kohl van Wijngaarden

Fixes #32434 - Fix warn about oudated apipie cache

When you run the rake task apipie:cache:index it prints a message that
the cache is out of date:

```
API controllers newer than Apipie cache! Run apipie:cache rake task to regenerate cache.
```

Since this is the command to actually generate that cache, the user
shouldn't be bothered with it.

This approach uses Foreman.in_rake? to determine which task runs rather
than parsing ARGV manually.
