It looks like we've missed updating Hammer in the past few releases. In [932041b9acb660f219919bf54930fc4c7f926856](https://deb.theforeman.org/dists/buster/2.5/binary-amd64/Packages) I at least updated nightly to 2.5 (and has since been updated to 3.0). We should fix this before 2.5.3 and modify the release process so we don't miss this.

- Status changed from New to Closed

Request to try running 'apt-get update' and then update hammer packages. Because I can see we have correct versions of hammer available in the 2.5 debian:

<https://github.com/theforeman/foreman-packaging/commit/c0e5fbc52a047acbb1553d1e081da9ce04daef0e>

Accordingly I do see correct packages in repo as well: [http://deb.theforeman.org/dists/buster/2.5/binary-amd64/Packages](https://deb.theforeman.org/dists/buster/2.5/binary-amd64/Packages). With this I am closing this issue. You can reopen or raise new issue if it persists.
