

Foreman - Bug #3286

Changes to the libvirt network type do not save

10/16/2013 02:54 PM - Dominic Cleal

Status: Rejected	
Priority: Normal	
Assignee: Lukas Zapletal	
Category: VM management	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description After creating a libvirt host, editing it, changing network type and then saving the form will not work. For example, if I change the network to be NAT'ed and save the form, it will still show as bridged the next time I load the edit page. https://bugzilla.redhat.com/show_bug.cgi?id=1018973
