

Packaging - Feature #33095

Feature # 33209 (New): Provide a common package prefix for plugins

Use "Provides" for hammer plugins too

Description	
In Foreman plugins, we have "Provides: foreman-plugin-NAME" in the RPM spec (https://github.com/theforeman/foreman-packaging/blob/b08c7dfbce44fa427bc0eb7caea181a7ff49187d/gem2rpm/foreman_plugin.spec.erb#L90-L91)	
We should have something similar for Hammer plugins (https://github.com/theforeman/foreman-packaging/blob/b08c7dfbce44fa427bc0eb7caea181a7ff49187d/gem2rpm/hammer_plugin.spec.erb#L52)

- Blocks Bug #33097: Use virtual package names for Hammer plugins added

#2 - 07/21/2021 02:57 PM - Ewoud Kohl van Wijngaarden

We should also make sure we perform the Debian equivalent so we can perform apt/yum install hammer-plugin-\$plugin. This will be easier for anyone who wants to write integration in a cross platform fashion (in our case Puppet).
