| **Pull request:** | https://github.com/theforeman/foreman/pull/8703 | | |

## Description

How reproducible:

Steps to Reproduce:
1. Create a new compute resource in foreman (VMware) using incorrect login credentials.

2. Click on "Load Datacenters"

Actual results:
Datacenters are (of course) not loaded but foreman claims "Test connection successful".

Expected results:
The error "InvalidLogin: Cannot complete login due to an incorrect user name or password." is thrown.
