Pull request:	https://github.com/theforeman/foreman/pull/8758, https://github.com/theforeman/foreman/pull/8774			

Description

When attempting to register a Rocky Linux 8 host using the built in subscription-manager "Registration command" feature it's logic isn't aware of "rocky" in the /etc/os-release file.

Creating this issue to go along with my pull request I'm about to submit
