<b>Description</b>		
When the user has used --no-enable-foreman the Foreman Puppet plugin should not be enabled.

Fixes #33577 - Only enable Foreman Puppet plugin with Foreman

If the user passed in --no-enable-foreman then the Foreman plugin should not be enabled. The same is true for the CLI side of it.

The add-cli migration is changed to respect an already present option that is false in order to properly test this change.
