

## Foreman - Bug #33698

### Host Parameters cleaned by Override

10/15/2021 09:00 AM - Marco Scavazzon

<b>Status:</b> New	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Host registration	
<b>Target version:</b>

<b>Triaged:</b> No	<b>Found in Releases:</b> 3.0.0
<b>Bugzilla link:</b>	<b>Red Hat JIRA:</b>
<b>Pull request:</b>	
<b>Description</b>	
I tried to Edit an already provisioned host.	
In the Host Parameters page, I have a list of Global Parameters, that I can Override. On the bottom, I have an already overridden parameter.	
If I try to Override another Global Parameter, the new Parameter is added in the Host Parameters list, but the previously Overridden parameter is cleaned (Name and Value are empty now).	
See attached images.

Here's the same thing happening in Host Groups with a possible workaround using Hammer/CLI:
