Category:	Foreman modules		
Target version:	3.1.0		
Difficulty:		**Fixed in Releases:**	3.1.0
Triaged:	Yes	**Found in Releases:**	
Bugzilla link:		**Red Hat JIRA:**	
Pull request:	https://github.com/theforeman/puppet-pulpcore/pull/234		

Description

when pulpcore-conent loses its database connection, it does not re-establish it properly, leading to a broken content app (see https://pulp.plan.io/issues/9276 for details)

as the installer does restart the database sometimes, we could notify the content app, so that at least in these cases it's also restarted and thus can reconnect

Associated revisions

Revision 440a8e05 - 10/20/2021 02:38 PM - Evgeni Golov

Fixes #33744 - notify the socket service when the DB changes

pulpcore-content fails to reconnect to the database,
so schedule a restart whenever the db changes
see https://pulp.plan.io/issues/9276 for details
