Description

Hey folks,

I am missing a parameter for the :trusted_proxies: in setting.yaml in the Puppet module.

Greetings
Harm

Refs #34089 - Work around Kafo type parsing bug

Due to a bug in Kafo[1], the Stdlib::IP::Address data type can't be
used. This broke the nightly build[2].

By reducing the type to simple String[1] and asserting in the body the
same guarantee is given, but with a worse UX if it does fail.
