Foreman - Refactor #34234

Do not warn on HTTP connection from Smart proxy

01/07/2022 04:12 PM - Ondřej Ezr

Pull request:	https://github.com/theforeman/foreman/pull/9020		

Description
When ssl is enabled, pure HTTP connections on smart-proxy enabled endpoints are allowed, just to throw an warning about such behaviour. To support this further in Rails 6.1 would be big effort (because of [#30122](#)) with very little benefit.

Revision a96fc62a - 01/14/2022 06:46 AM - Ondřej Ezr

Fixes #34234 - do not allow HTTP on SmartProxy Auth

SmartProxyAuth enabled on its endpoints HTTP to log a message, that ssl is required.
This in not necessary and it is hard to keep for the future as Rails 6.1 will make that harder.

There is not too much benefit from this, so it's better to drop it.
