I can't reproduce the issue. Did you do 1.1 -> 1.2 upgrade? How did you do that (via yum or git)? What OS/ruby version is this running on? Does it fail on the same fact every time? If so, could you check if the fact is present in fact_names table before you attempt the import?

#6 - 10/24/2013 05:18 PM - Matthew Nicholson

Right, so:

Yes, this was a 1.1->1.3 upgrade.
This was via yum pkgs.
OS: CentOS 6.4
Ruby: System is ruby 1.8.7, but this is using the packages foreman 1.9.3 stuff (ruby193*.rpm)

Yes, fails on the same fact, every time.

And yes, the fact IS present in fact_names before an import:

```
mysql> select * from fact_names where name = 'has_omsa';
+------+----------+---------------------+---------------------+
| id   | name     | updated_at          | created_at          |
+------+----------+---------------------+---------------------+
| 1865 | has_omsa | 2013-07-17 16:55:50 | 2013-07-17 16:55:50 |
+------+----------+---------------------+---------------------+
1 row in set (0.00 sec)
```

I'm going to drop that and see whats what.

#7 - 11/07/2013 11:58 PM - Aaron Stone

Is this blocking the 1.3.1 release?

Nope, will unset it though.

#9 - 11/12/2013 12:14 PM - Anonymous

Foreman is dropping support for MySQL database - see https://community.theforeman.org/t/rfc-dropping-support-for-mysql/14185 for further details. Closing this issue.
