

## Foreman - Bug #3493

### Users created from LDAP even if auto creation is not checked

10/24/2013 07:50 PM - Chuck Schweizer

<b>Pull request:</b>	
<b>Description</b>	
I have verified "Automatically create accounts in Foreman" is not checked in my configuration.	
Reproduce:	
1) setup ldap authentication	
2) make sure "Automatically create accounts in Foreman" is not checked	
3) login to foreman with a user that is in LDAP but does not have a foreman account	
4) Foreman will create a new account for the user and ask them to fill out their email and name.	
Debug shows:	
<pre>(2.3ms) COMMIT User 'testidl1' auto-created from LDAP-Server1</pre>	

#### Associated revisions

##### Revision ccd9e52c - 11/20/2013 10:29 AM - Stephen Benjamin

fixes #3493 - check if auto user reg is allowed for auth source

#### History

##### #1 - 11/17/2013 12:33 AM - Stephen Benjamin

I can confirm this. source.onthefly\_register isn't checked anywhere, so ldap users are always automatically registered.

PR for proposed fix:
