<b>Description</b>	
I think it would be useful with a feature in Foreman where a user or a group of users can be allocated a pool of resources to use. I.e total amount of cpu cores, memory and storage. This should be configurable per compute resource.

#### Associated revisions

##### Revision 38f38730 - 01/07/2014 08:57 PM - Michaux Kelley

Update controller params to make UI work with API

This adds params needed to list and create providers now in the UI as well as cleans up some controller actions.

Fixes #3494

#### History
