Description

Users syncing from partial Ubuntu mirrors (a common scenario) currently get an error.

The solution is to add `FORCE_IGNORE_MISSING_PACKAGE_INDICES = True` to `/etc/pulp/settings.py`.
This should be done by default for all Katello installations with pulp_deb.

Revision 5e2bfd7e - 10/28/2022 10:30 AM - Quirin Pamp

Fixes #35496 - Add default pulp_deb config

https://projects.theforeman.org/issues/35496

For Katello users this is the sane/expected default behaviour. It allows
for the synchronization of partial Ubuntu mirrors, a very common use
case in the wild. Users often stumble over the error that is thrown for
such mirrors without this setting.
