this looks really good!, two questions:

1. I'm unable to build the packages due to my lack of proper deb knowledge, how difficult would it be to add a rake tasks which builds the package out of the current checkout version?
2. Do you want to release a new package based on your mods? or wait for the next release?

#2 - 07/19/2010 09:37 AM - Jochen Schalanda

1. It should be as easy as copying ./extras/debian in the main directory and running `debuild`. If this doesn't work for you (e. g. because of missing dependencies), please post the error messages. Creating a rake task for it shouldn't be too hard. I'll have a look at it later.

2. I think making a new package for Foreman 0.1-5 wouldn't be worst thing to do.

#3 - 07/20/2010 01:19 PM - Jochen Schalanda

- Status changed from New to Ready For Testing

- % Done changed from 0 to 100

Applied in changeset [19c8133e119b1bc2b18016b33189ae5074456bdd](#).

#4 - 08/15/2010 01:36 PM - Ohad Levy

- Category set to 21

- Status changed from Ready For Testing to Closed

- Assignee set to Jochen Schalanda

- Target version set to 0.1-6

#5 - 10/15/2018 01:44 PM - Tomer Brisker

- Category changed from 21 to Packaging
