Description

Tried to unsuccessfully install these plugins for a foreman 1.3 installation from RPM but getting permission denied errors.

History

#1 - 11/04/2013 01:54 PM - Dominic Cleal

- Status changed from New to Closed

- Assignee set to Dominic Cleal

- Target version set to 1.15.0

- % Done changed from 0 to 100

The foreman_param_lookup RPM has been built and will appear in the repos later today. Here's the link to the EL6 RPM in the meantime:
http://koji.katello.org/koji/buildinfo?buildID=7134

The foreman_data_binding puppet module is available via "puppet module install" and is published on the Forge instead of an RPM.
