

Foreman - Feature #35738

Add git mailmaps where needed

11/09/2022 12:24 PM - Ewoud Kohl van Wijngaarden

Status: Ready For Testing	
Priority: Normal

Difficulty:	Fixed in Releases:
Triaged: No	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>In the release notes we like to credit people based on the git log, but regularly people use multiple names. Git has a mailmap feature (https://git-scm.com/docs/gitmailmap) which allows mapping it back to one single name.</p> <p>Today we have a script with an author map but as we're moving to foreman-documentation it's nice to implement this in repositories themselves so no specific tooling is needed.</p>
