

Katello - Feature #35778

Auto-select errata which is solved by installing another erratum

11/22/2022 01:56 PM - Bernhard Suttner

Status: New	
Priority: Normal	
Assignee:	
Category: Errata Management	
Target version: Katello Backlog	
Difficulty:	Fixed in Releases:
Triaged: Yes	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description Imagine that you have 2 Errata: 1. E-1 with Package P-1.0.1 2. E-2 with Package P-1.0.2 If you install E-2 the package P in version 1.0.2 is installed. This solves erratum E-1 with package P in version 1.0.1 automatically. The UI should make this visible and auto-select E-1 if you click on E-2.	

History

#1 - 11/23/2022 06:41 PM - Chris Roberts

- Category set to Errata Management
- Target version set to Katello Backlog
- Triaged changed from No to Yes

Bernhard,

Can you open a RFC on the community discourse about this. Talking over this during triage, it sounds complicated so we would like to have a discussion about this.

#2 - 12/16/2022 03:48 PM - Bernhard Suttner

Done. See: <https://community.theforeman.org/t/auto-select-errata-which-is-solved-by-installing-another-erratum/31615/2>
