Description

A bookmark created with a "/" breaks the bookmark page with a "No route matches."

Related issues:

Is duplicate of Foreman - Bug #3516: Architectures etc: resources created/mod...	**Closed**	**10/25/2013**

History

#1 - 11/07/2013 09:23 AM - Dominic Cleal

- Is duplicate of Bug #3516: Architectures etc: resources created/modified should not use multibyte names in URLs added

#2 - 11/07/2013 09:23 AM - Dominic Cleal

- Status changed from New to Duplicate

Thanks, we're currently fixing this in [#3516](#).

#3 - 11/07/2013 09:27 AM - Stephen Benjamin

Pull request submitted that changes "/" to "_": https://github.com/theforeman/foreman/pull/1006

And here's the fix to delete the broken bookmark:
[root@gatebuilder ~]# su - postgres
-bash-4.1$ psql
psql (8.4.18)
Type "help" for help.

postgres=# \c foreman
psql (8.4.18)
You are now connected to database "foreman".
foreman=# delete from bookmarks where name = '<incorrect/name>';

#4 - 11/07/2013 09:29 AM - Stephen Benjamin

Ah ok, never mind then :-) Didn't see that bug.

#5 - 11/07/2013 09:33 AM - Dominic Cleal

No worries, thanks for the PR anyway! That bug covers a number of related issues, hopefully improving all of our resource identifiers to prevent these problems.
