<b>Pull request:</b>		

#### Description

Currently when adding/removing products to ACS, you have to provide the complete list of products that ACS should have from hammer. That is very inconvenient for larger ACSs with many products. Instead provide subcommands like add-products, remove-products on the lines of hammer activation-key add-host-collection/remove-host-collection.

#### History

#1 - 03/08/2023 06:53 PM - Jeremy Lenz

- Target version set to Katello Backlog

- Triaged changed from No to Yes
