Description

Due to a typo in host_mailer.rb (T:%{total} instead of T:#{total}) the total value is not shown in the daily summary mail subject.

- Category set to Reporting

- Difficulty set to trivial

%{total} is correct because it's extracted for i18n purposes, but a few lines below there's this line:

```
:total => total_metrics["total"]
```

This should be :total => total rather than referencing total_metrics.
